

GREENWOOD AVE ALMONDS

\$1,060,000

25.21± Acres in Fresno County, CA

Consolidated Irrigation District & Church Water Rights

PROPERTY OVERVIEW

\$1,060,000 (\$42,047/ACRE)

This 25.21± acre almond ranch offers a turnkey agricultural investment opportunity in a premier growing region of Fresno County. It is a well-designed, young almond ranch planted to self-fertile Shasta trees just entering their most productive years. The orchard is in Consolidated Irrigation District (CID) with Church Water Rights. The property is adjacent to the City of Sanger's Sphere of Influence, which may offer some future long-term development upside.

Address 3630 S. Greenwood Ave.
Sanger, CA 93657

Growing Region Central San Joaquin

Assessors Parcel No. 332-110-51

Gross Acres 25.21 Acres (per Assessor)

Net Acres 22.60 Acres (per Measurement)

Williamson Act No

Structures None

Zoning AE20 - Exclusive Agricultural

FARMING DETAILS

This young orchard is developed to a single block of Shasta almond trees on Hansen rootstock - this self-fertile variety produces a Nonpareil-type kernel. This is a great opportunity to purchase an efficient block of almonds just as the trees begin to enter their prime productive years. Due to age, production data is limited, but can be provided upon request.

| Crop | Variety | Rootstock | Planted | Age | Spacing | TPA | Acres |
|---------|---------|-----------|----------|-----|---------|-----|-------|
| Almonds | Shasta | Hansen | Nov 2020 | 5 | 21 x 16 | 130 | 22.60 |

| Soil Code | Soil Description | Acres | % | CAP |
|---------------|----------------------------------------------|--------------|-------------|------------|
| TzbA | Tujuna loamy sand, 0 to 3 percent slopes | 9.29 | 37.81 | 4s |
| GtA | Greenfield sandy loam, 0 to 3 percent slopes | 8.21 | 33.41 | 1 |
| Hc | Hanford sandy loam | 5.25 | 21.37 | 2s |
| DeA | Delhi sand, 0 to 3 percent slopes, MLRA 17 | 1.83 | 7.45 | 3s |
| Totals | | 24.58 | 100% | 2.5 |

WATER DETAILS

The Property receives water from Consolidated Irrigation District (CID) from the Kings River at a reasonable cost of \$64 per gross acre (*not* acre-foot) paid annually as an assessment. Parcels with Church Water Rights have water availability that starts sooner and ends later than others in CID and water can be taken as needed when available in the system. CID is not connected to the CVP or SWP systems, so is not subject to contract limitations. Additionally, CID is a strong district for groundwater recharge. One submersible well (288± GPM) is available on-site.
